

Promoting European **TRACEABILITY** Excellence & Research

PETER consortium members presented to delegates attending the International Symposium on Traceability for Food Safety, in Suwon, South Korea.

The latest research on Food Traceability were presented at the International Symposium on Traceability for Food Safety, in Suwon, South Korea in May. Over 200 attended the conference, hosted by the Korean Rural Development Agency. The meeting showcased the latest European, Korean and Japanese research on food traceability. PETER participants, Paul Brereton (CSL), Yves Bertheau, Raul Green (INRA) and Elena Maestri, (Univ.Parma) together with Paolo Pizziol (JRC Ispra) and Robert Madge (FoodReg) presented the latest outputs from research on GM traceability and detection, food authenticity and farm traceability. It was agreed that close links between PETER and related initiatives in Korea and Japan would be formed.

Paul Brereton presents the PETER project

Elena Maestri, Paolo Pizziol, Raul Green, Cheol-Hi Lee (RDA organiser) and Hee-Jong Choi (General Director of RDA)

Robert Madge + In-Sik Kim (Administrator of RDA)

Dr Maruyama Kiyooki
Director General of NARC,
Japan
